

Prime and Feeding Heifers, Cows and Bulls

Consignors should note that the market is demanding that Prime and Feeding Heifers, Cows and Bulls for slaughter are in a clean or clipped condition.

FOOD CHAIN INFORMATION

VETERINARY MEDICAL WITHDRAWALS

From 1st January 2010 new legislation comes into force requiring slaughterhouse operators to receive, check and act upon food chain information.

To comply with these new requirements we have modified our movement documents for all classes of stock coming to market to include the necessary declarations on food chain information. This will allow us to pass on this information which must accompany all animals to slaughter and for Store Stock to pass on Medical withdrawal information.

Unless otherwise stated at the time of sale (either by the auctioneer, on the catalogue or the display screens) all livestock are sold as having completed all withdrawal periods for any veterinary medicines they have received. For any animals under treatment the details must be completed in the movement declaration form. It is the responsibility of the buyer to ensure that any animal destined for the food chain are outwith any withdrawal periods.

New Livestock keepers:

Requirement to register with your Animal Health Office.

New keepers of the main livestock species (cattle, sheep, goats, pigs) are required to register their herds and flocks, and the “holdings” they are kept on, under EU Directives. This applies to any number of animals, including individual “pets”.

SCOTTISH BVD ERADICATION SCHEME **NOTICE TO VENDORS AND PURCHASERS**

It is the responsibility of each Vendor to ensure that Vendor declarations in relation to the Bovine Viral Diarrhoea (“BVD”) status of all animals provided to Auctioneers are accurate declarations as at the date of sale.

However, Purchasers should be aware that an accurate Vendor declaration cannot absolutely guarantee that any animal or progeny from any animal is free from BVD or is not a persistently infected (“PI”) animal.

Auctioneers cannot accept any responsibility for the accuracy or reliability of any Vendor declarations and no warranties or guarantees whatsoever are given by the Auctioneers.

Category/ Catalogue info	Standard	Risk Level
BVD Category 1 BVD Accredited / Individually Tested Negative	Cattle are not pregnant and are either from an Accredited BVD-Free Herd through a CheCS cattle health scheme or Individually tested BVD virus free	Very low risk
BVD Category 2 BVD Herd Screened Negative	From a herd with a ‘negative’ BVD herd status through a mandatory annual screening or certified virus free and vaccinated.	Low risk
BVD Category 3 BVD Status Unknown	All cattle not in either of the categories above (including from ‘not-negative’ herds)	Risk unknown

Please note, pregnant animals are always a greater risk and therefore cannot be assigned as Category 1, very low risk.

Pregnant animals, which would otherwise be category one must be assigned as Category 2 (low risk).

FORTHCOMING SALES AT THAINSTONE AND CAITHNESS

AUGUST
