AUCTION PROTOCOLS IN FORCE FOR 2021

We are operating a strict 'DROP & GO' policy for all sellers of stock delivered for sale through Thainstone and Quoybrae.

Farmers Delivering Livestock to Thainstone

Deliveries made to marts as normal via livestock trailers/hauliers.

Hauliers/farmers to unload livestock into pen beside loading bay.

Farmer/haulier to leave premises.

Mart staff to collect livestock from the loading bay pens and pen up in the mart.

Mart staff collect required paperwork from driver across biosecurity line or via email (preferable) ensuring maximum social distance is maintained.

Buyers Coming to Thainstone to Purchase Livestock

Any buyer must pre-register their attendance at any sale with the mart office on the day prior to the sale.

Buyers must declare that they have not been in contact with a positive COVID-19 case nor have visited a high-risk area during the previous 14 days.

Buyers to sign in and out of auction mart premises.

Only pre-registered buyers will be allowed access to the mart.

Buyers will be advised to keep a distance of 2 metres from each other around the auction ring. All rings have sufficient space to accommodate this spacing and areas have been marked out.

Suitable bio-security measures will be in place and available – hand washing facilities/hand gels/foot dips etc. Buyers will be expected to use these on entry and exit.

No additional visitors will be admitted to the mart on sale days outside of key staff and registered buyers.

Buyers can use our online bidding facility from home.

Removal of Stock Post Auction

Hauliers/farmers arrive at mart in normal manner; however, they are to remain in vehicles until loading bay space becomes available.

Reverse to loading bays and, from a safe distance, inform the mart staff of consignment to collect.

Mart staff will deliver livestock to pens beside loading bays and haulier/farmer should complete the loading of the lorry/trailer. Mart staff to share paperwork with driver as required across the biosecurity line. Mart staff to retain maximum social distance possible from vehicle driver.

Haulier/farmer leaves the site.
