# **SCOTTISH BVD ERADICATION SCHEME**

## **NOTICE TO VENDORS AND PURCHASERS**

It is the responsibility of each Vendor to ensure that Vendor declarations in relation to the Bovine Viral Diarrhoea ("BVD") status of all animals provided to Auctioneers are accurate declarations as at the date of sale.

However, Purchasers should be aware that an accurate Vendor declaration cannot absolutely guarantee that any animal or progeny from any animal is free from BVD or is not a persistently infected ("PI") animal.

Auctioneers cannot accept any responsibility for the accuracy or reliability of any Vendor declarations and no warranties or guarantees whatsoever are given by the Auctioneers.

| <b>Category/<br/>Catalogue info</b>   | <b>Standard</b>  | <b>Risk Level</b>    |
|---|--|----------------------|
| <b>BVD Category 1<br/>BVD Accredited /<br/>Individually Tested<br/>Negative</b> | Cattle are not pregnant and are either from an Accredited BVD-Free Herd through a CheCS cattle health scheme or Individually tested BVD virus free | <b>Very low risk</b> |
| <b>BVD Category 2<br/>BVD Herd Screened<br/>Negative</b>                        | From a herd with a 'negative' BVD herd status through a mandatory annual screening or certified virus free and vaccinated.                         | <b>Low risk</b>      |
| <b>BVD Category 3<br/>BVD Status Unknown</b>                                    | All cattle not in either of the categories above (including from 'not-negative' herds)   | <b>Risk unknown</b>  |

**Please note, pregnant animals are always a greater risk and therefore cannot be assigned as Category 1, very low risk.**

Pregnant animals, which would otherwise be category one must be assigned as Category 2 (low risk).

# HIGH FREQUENCY ELECTRONIC TAGGING

## WE NEED YOUR HELP

### ANM UHF TAG TRIAL

ANM are working with Scot EID to find a working solution for High Frequency Tags for Cattle. There are many challenges with this, but we are making some good progress. We have various readers set up around the market to “read” cattle with UHF tags inserted in their ear. The UHF approved tags are a salmon pink colour to make them easily recognisable.

We are looking for farmers who are going to be selling stock through the market and are willing to be part of the trial. There are two options available:

- **Free** supply of pink flag tags as an additional tag.
- **Free** (limited) supply of pink button tags as an additional tag.

#### What effort is required?

- Contact ANM to obtain tags
- Tags will all come pre-programmed with UK unique identification number
- Insert additional tag into stock ears the next time stock is in the crush.
- Notify ANM when stock is coming through for sale

#### Calves

- If you require to purchase tags for your new born calves, please consider purchasing a high frequency tag as the secondary tag for your calves (only currently available from Tom Nelson, Farm Supplies 07795 511315). These are currently subsidised so it may be cheaper.

If you wish to take part in the trial or are looking for further information, please contact [Isabel.buchan@anmgroup.co.uk](mailto:Isabel.buchan@anmgroup.co.uk) on 07469149151 or your local ANM fieldsman.

# MULTI-MAG

A highly palatable Magnesium supplement suitable for dairy and suckler cows to reduce the occurrence of grass staggers during known risk periods.

**East Coast  
Viners**  
*Animal  
Nutrition*

- 17% Magnesium supplied from three different sources to improve availability
- 20kg and 80kg buckets
