TERMS OF SALE - CASH

ANM GROUP HEALTH AND SAFETY RULES

NOTICE TO ALL VISITORS AND TRADERS.

All visitors and traders on site will be responsible for ensuring that they and their employees or sub-contractors engaged by them comply with all legal requirements, including the Health and Safety at Work etc., Act 1974, The Management of Health and Safety at Work Regulations, The Provision and Use of Work Equipment Regulations, etc.

All visitors and traders will be responsible for ensuring that their operations in no way affect the integrity of the company or its fire, safety or security arrangements and in no way compromise the health, safety and welfare of other visitors to and or employees of ANM Group.

After reversing into the loading banks before exiting their vehicle to unload/load livestock at ANM Group Livestock Marts, Hauliers, Farmers, Exhibitors must follow the "Safe Stop Procedure" -

- 1) Engage handbrake
- 2) Controls in neutral
- 3) Switch off engine
- 4) Remove key

Refer to the ANM Transport Management Plan posted in the Mart Office within Quoybrae Livestock Centre.

When loading or unloading livestock hauliers, farmers and exhibitors will be responsible for unloading/loading of their livestock in/out of their float/trailer. ***ANM Group Livestock Handlers will not be permitted to enter the loading bank pens until the livestock are placed in the pen and gates closed the livestock is secure in the loading bank pen.***

Vendors must inform ANM Group of any livestock due to attend the market whose temperament, behaviour or condition may call for additional precautions for its safe handling.

In the case of bulls, during the period when show and sale is open to visitors, bulls in pens must not be left unattended. If the vendor is temporarily absent, arrangements should be made with another vendor, steward or member of ANM Group staff to oversee the bull until the handler returns.

Visitors and Traders enter the Livestock areas at their own risk, this area has been assessed as a high-risk area where inexperienced persons have a higher risk of harm. Please cooperate with the ANM Group Livestock team by leaving the area when the Livestock Sale commences.

Traders should ensure that livestock handlers/exhibitors are fit, experienced in livestock handling and familiar with the livestock in their charge.

Children must not be permitted in any area where they may be at risk from livestock or machinery.

Handling of Livestock at shows and sales: ANM Group recommend that an adult person should accompany any junior person during the showing/sale of livestock in the ring and reserves the right to intervene at any point if, in the company's opinion, the person showing the livestock is at risk in undertaking the activity.

All portable electrical equipment supplied and /or used by visitors and traders must be safe and fit for purpose and should have a valid portable appliance test certificate (hair dryers and other equipment).

Passageways must be kept clear at all times during the auction sale.

PLEASE DO NOT STAND IN THE SALE RING ENTRANCE AND EXIT PASSAGES.

The auction ring man escapes and refuges must be kept clear at all times.

The North Country Cheviot Sheep Society

would like to take this opportunity to wish all members
& purchasers every success.

Anyone interested in joining the Society can contact the Secretary - Corinna on
077834817710 or email [**secretary@nc-cheviot.co.uk**](mailto:secretary@nc-cheviot.co.uk).

the breed & don't forget to follow us on social media – Facebook
[**@nccheviot**](#), Twitter [**@nc_cheviot**](#) or Instagram [**@nccheviotsheepsociety**](#)

NOTICE TO BUYERS

All sheep to be paid on day of sale, before removal from the mart premises.

Rams are not warranted to pass quarantine. Buyers for export are advised to insure against all risks. Unless otherwise stated, breeders shall keep rams for the short period awaiting entry to quarantine, but will not be liable for damage, losses or expenses involved.

Buyers from Ireland should make themselves familiar with their country's regulations for entry before purchase.

MONDAY 22ND SEPTEMBER

Sale of Store & Breeding Cattle

MONDAY 29TH SEPTEMBER

Sale of Prime & Store Lambs, Feeding Ewes & Rams.

MONDAY 6TH OCTOBER

Show & Sale of Weaned Calves, Store & Breeding Cattle.
Second Sale of All Breeding Rams

NOTICES

SHEEP IDENTIFICATION AND TRACEABILITY REQUIREMENTS DOUBLE TAGGING REQUIREMENTS FROM 31 DECEMBER 2009

The new EID regulations require animals born or first identified after 31 December 2009 to be EID double tagged with the exception of animals intended for slaughter

Tagging Requirements For both the single and double tagging requirements the tags must be applied within nine months of birth, or when they first move off the holding of birth if that is sooner, and must have the following information -

Slaughter animals All animals intended for domestic slaughter within 12 months of age must be identified using a single electronic slaughter tag (batch tag). This has only the flockmark printed on the outside of the tag, and the flockmark and individual number programmed into the electronic chip

Fully EID identified animals (born or identified after 31 December 2009 and kept for breeding or beyond 12 months of age) two identifiers, one electronic and one conventional - with 'UK' followed by a '0', then your unique flockmark, followed by a five-digit animal number printed on the outside of the tag, and also programmed into the electronic chip

Movement documents It is a legal requirement that all sheep must be accompanied with a properly completed and signed Scottish Government Movement Document when moving to the market to allow accurate notification of movements to SAMU

Sheep Tagging Requirements 2015 From 1st January 2015 all sheep born before 1st January 2010 which are not already EID tagged should be upgraded prior to moving to market. These sheep should be double tagged, one of which must be an EID tag.

SHEEP SCAB ORDER

Any person who suspects a sheep may be infected by sheep scab must notify the DVM. Where the presence of sheep scab is suspected movement restrictions are triggered, prohibiting the movement of sheep onto or off the premises until either :

All affected sheep or carcasses have been either treated or disposed of and the owner / keeper has notified the DVM, in writing, within 2 weeks of treatment including (i) the date of treatment, (ii) the number of animals treated and (iii) the treatment used.

A veterinary surgeon has notified the DVM that in their opinion there are no affected sheep or carcasses on the premises and has not been for at least 16 days.

13 DAY STANDSTILL : MARKETS

- Livestock moving of f a market or returning home unsold will always trigger a 13day standstill on that holding, (20 days for pigs), unless for slaughter or if another specific exemption applies.
- The use of approved Separation Facilities (agreed in advance with SGRPID) **may** allow movement to and from sales without affecting other stock on the holding.
- It is the consignor's responsibility to ensure that movements comply with current legislation. Further information is available from SGRPID, Thainstone Court, Inverurie.

WELFARE OF ANIMALS DURING TRANSPORT

It is an offence to transport pregnant female animals to market for sale if they have reached the latest stage of gestation (within 10% of the estimated time of the gestation before birth) and for a period of one week after giving birth.

FOOD CHAIN INFORMATION **VETERINARY MEDICAL WITHDRAWALS**

Unless otherwise stated at the time of sale (either by the auctioneer, on the catalogue or the display screens) all livestock are sold as having completed all withdrawal periods for any veterinary medicines they have received. For any animals under treatment the details must be completed in the movement declaration form. It is the responsibility of the buyer to ensure that any animal destined for the food chain are outwith any withdrawal periods.

New Livestock keepers:

Requirement to register with your Animal Health Office.

New keepers of the main livestock species (cattle, sheep, goats, pigs) are required to register their herds and flocks, and the "holdings" they are kept on. This applies to any number of animals.

SHEEP SCAB

Have you got all the facts you need to protect your flock?

Sheep scab, caused by infestation of the skin with the scab mite costs the UK sheep industry >£80M per year.

Mites resistant to the ML injectables have been found in Scotland so correct diagnosis is crucial to give the correct treatment, at the right time and to all animals not just those showing signs

Sheep scab mite

What are signs of sheep scab?

- Scab is characterised by yellow scabs, restlessness, scratching, loss of wool and loss of condition

How is it spread?

- Scab is spread by direct contact with infested animals, but as the mite can live off-host for 16-19 days, scab can be spread via fence posts, handling equipment, trailers and shearing equipment

If you suspect your flock has scab, you **must** report it to APHA and **should** seek advice from your vet on controls.

Treatments

- A blood test is available for sheep scab and can diagnose the disease before clinical signs appear, reducing the spread
- OP dipping is an effective means of controlling scab and also kills mites resistant to the MLs but must only be used as a plunge dip

Never allow dip to enter a watercourse and ensure you have a permit from SEPA prior to disposal of waste dip to land.

More information can be found at: <https://www.scops.org.uk/external-parasites/scab/>
