SEASONAL GRASS LETS

We are currently compiling particulars of sale for our annual grass lets. If you have land to let for the forthcoming season with or without eligibility to claim the Basic Payment Scheme contact any of our auctioneers, field staff or mart offices.

Sales will be held on 21st and 28th April.

Think BVD when cattle are at grazings or wintering away - Including LINKED HOLDINGS

Not-Negative Herds have obligations

- **All** individual animals must be tested BVD Virus (antigen) negative before movement
- Linked Holding moves are still considered movements even though they are not reported to BCMS
- IAAS terms of lease tailored for grazing lets outline best practice standards and provide a sound framework for setting up grass lets

Negative Herds should **recognise** there are **BVD Risks** associated with grazing and wintering and take steps to reduce those risks

- Pregnant and breeding stock are at high risk if exposed to BVD Virus- keep this class of stock at home or on low risk grazing if possible
- Consider BVD tissue tag testing calves born to cows or heifers which have been held away from the main holding during pregnancy or bulling and isolate until cleared if possible– speak to your vet if uncertain
- Plan an appropriate vaccine strategy with your vet before movement – **Vaccines can reduce the risk of virus spreading**

For more information on the BVD scheme please contact the BVD helpline on: bvd@scoteid.com / 0300 244 9823
