MESSAGE FROM OUR MAIN SPONSOR

Welcome to The Aberdeen CHRISTMAS CLASSIC Sponsored by RPD

Rapid Project Development Ltd is once again delighted to be the main sponsor of the **2026 Aberdeen Christmas Classic**, marking our eighth consecutive year supporting this prestigious event.

As a family-run business with strong roots in the North East of Scotland and the agricultural industry, we are proud to continue our association with an event that celebrates the very best of Scottish livestock and the dedication of the farming community.

Originally founded by Paul Duxbury and developed alongside his sons, the business is now headed by brothers John-Paul and James Duxbury. Together, we continue to build on the company's foundations, providing complete turnkey construction solutions across the agricultural, commercial and industrial sectors.

2026 has been our busiest year to date, with our teams delivering everything from large-scale poultry developments and grain storage facilities to industrial buildings, structural steelwork, concrete works and major earthworks throughout Scotland. With some of our largest projects yet already in the pipeline, 2027 is shaping up to be another exciting year.

Despite our continued growth, our approach remains the same: providing a personal, practical and reliable service, delivering quality workmanship and value for money from initial design through to project completion.

Our agricultural connections extend beyond construction. Through our sister company, RPD Scotland Ltd, we remain actively involved in arable farming, livestock and renewable energy, giving us valuable first-hand experience and an understanding of the needs of our farming clients.

Turning to this year's Christmas Classic, we would like to extend our sincere thanks to ANM Group, the Aberdeen Fatstock Association, the organisers and, most importantly, the exhibitors whose hard work and dedication make this event possible.

We are extremely proud to have supported the Christmas Classic since 2019 and look forward to continuing that relationship for many years to come.

Finally, we wish everyone exhibiting, buying, selling or visiting a successful and enjoyable event at Thainstone. We look forward to catching up with customers, colleagues and friends, both old and new, over the two days.

Unlock the Genetic Potential of Your Texels

Genotyping provides the confidence and information today's breeders and buyers rely on, delivering:

+ Verified pedigrees through parentage verification
+ Valuable health information (see table below)
+ More accurate performance figures, particularly in young lambs
+ Greater confidence when selecting future breeding stock
+ Faster genetic progress in commercially important traits
+ Trusted information that adds value for potential buyers

	Scrapie	**Microphthalmia**	**Maedi Visna**
Most resistant (desirable)	ARR/ARR	G/G	1,1 4,4 1,4
Genetically resistant, need careful breeding selection	ARR/AHQ ARR/ARH ARR/ARQ	C/G (Carrier)	
Little resistance, need careful breeding selection	AHQ/AHQ AHQ/ARH AHQ/ARQ ARH/ARH ARH/ARQ ARQ/ARQ		
Susceptible, can be used to breed towards more resistance			*,1 *,4 1,* 4,*
Most susceptible			2,2 3,3, 2,3

ET donors (born from 2025-onwards) and males to be registered must be genotyped otherwise their progeny will not be able to be added to iTexel.

All other stock can be genotyped to provide more flock insights. DNA kits can be requested for any animal as soon as it has been added to iTexel.

Scan the QR code to learn more about the Society's genotyping service

New Stock Rams

Remember to register your new stock rams before 1st December to benefit from the lower registration fee.

Already genotyped?

- Email registrations@texel.co.uk with your proof of purchase.
- Once confirmed, your ram will be transferred into your flock.

Not yet genotyped?

- Request a DNA kit through the DNA Kit page on iTexel.
- Take the sample and return it to the Society office.

Performance Pays with Texel Indexes

Breed Better. Buy Smarter. Reduce Risk.

Texel Performance Indexes are designed to help commercial producers and pedigree breeders identify animals with the greatest potential to improve flock profitability.

Higher Value = Higher Potential

Animals are ranked to make selection simple; high index Texel rams (Top 5% and above) add over £650 to their commercial progeny compared to those ranked as average.

Which Index?

Prime lamb producers should use the **terminal index** as this is weighted for meat production. Pedigree breeders and producers retaining female replacements should use the **replacement index** as this balances maternal and carcass traits.

TEXEL SHEEP SOCIETY | TEXEL SOCIETY (TXL)

10 TEXEL SOCIETY JAMES BOND TXL2601234(1) Born: 01/04/2026

	Growth	Musc. wt	Fat weight	Repro.	Index	Index Acc.	Ranking

Replacement	TOP 1%	TOP 1%	TOP 1%	TOP 25%	£11.79	81%	TOP 1%

Sub-indexes for growth, muscle and fat weight and reproduction allow breeders and commercial producers to identify animals that offer advantages in areas to suit their production goals. E.g. targeting a ram that ranks highly for fat weight for mating to lean females, to produce lambs that finish well.

Accuracy Matters

Indexes are backed by an accuracy percentage - giving confidence in how reliably an animal will pass traits on to the next generation. Higher accuracy reduces risk and supports confident breeding decisions.

Why Use Performance Information?

- ✔ Improve flock efficiency
- ✔ Increase carcass value
- ✔ Breed replacements with stronger maternal traits
- ✔ Make informed purchasing decisions
- ✔ Select genetics with confidence
